International Built Environment Week 2022

# 888 Plaza App Kick Off Event

Playing it right for the planet — now, that's what Terra 2236, our new mobile gaming application, is all about!

On 9 July 2022, Ms Hany Soh, Member of Parliament for Marsiling-Yew Tee GRC, along with SIBL President, Dr. Sussie Ketit, officially launched the Terra 2236 gaming application, on Woodgrove Sustainability Day 2022. The event was held at Woodlands' Atrium @ 888 Plaza, featuring our exuberant astronauts to engage with residents in the Woodgrove Community and encourage them to download the Terra 2236 app. The sustainability-themed event featured booths which included organic vegetable distribution and upcycling second-hand clothes.

Ms Hany, SIBL, GreenA Consultants and iClick Media who launched the game on 9th July 2022 at 888 Plaza

Ms Hany Soh, SIBL and the Woodgrove Constituency launching the Mobile App, Terra 2236

Our exuberant astronauts encouraging and explaining educational concepts of the game to residents.

In each level, you will encounter animal characters, such as dolphins and fish and you will be asked questions, such as the number of NEWater plants in Singapore. Score it right

and you will increase your score on the leadership board.

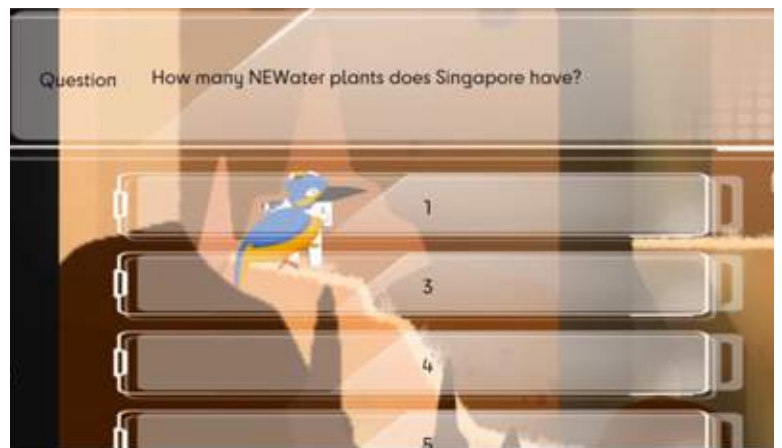

GreenA Consultants sharing on how the game was conceived with the sustainability concepts of Terra 2236.

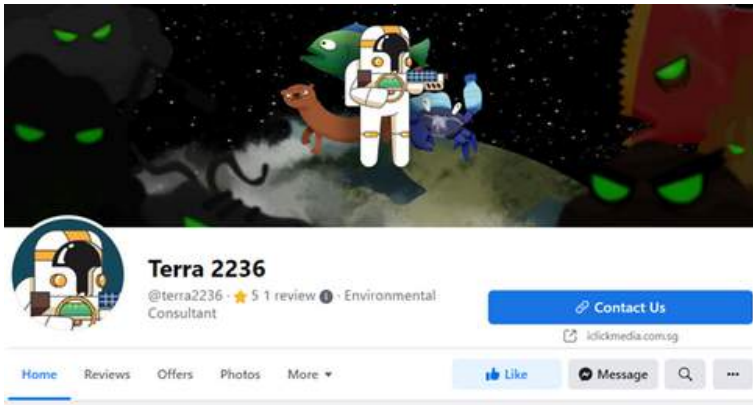

As part of the SIBL's effort to support the SG Green Plan 2030, SIBL together with collaborators iClick Media and GreenA Consultants has embarked on an initiative to increase environmental

awareness among the Woodgrove Community through gamification. Green Living Through App Based Education and Gamification for the Woodgrove Community. Imagine the year 2236 and you are an astronaut who landed on an uninhabited planet filled with environmental issues and realised that the planet was once Earth! The main theme for the game was centered around the 3 different terrains — ocean, dried riverbed and overgrown city which were inspired from our degrading nature on earth.

We invite you to come join us with your family, children and friends on this futuristic adventure, where you will learn about sustainability concepts, related to plastic waste, water conservation and renewable energy usage.

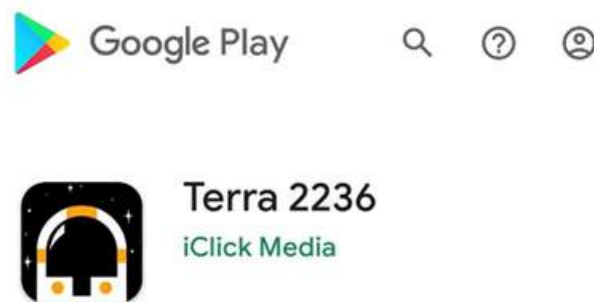

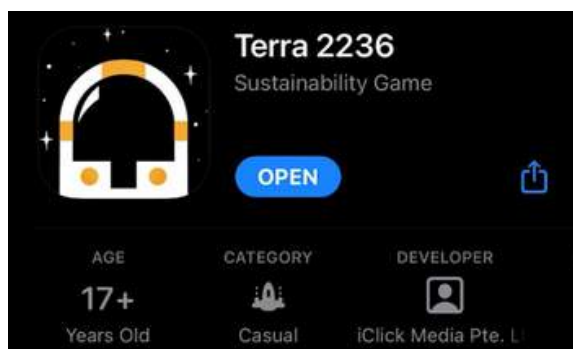

Over the coming months, we will be launching a series of activities such as educational videos, physical events and town hall webinars. Stay tuned and follow our Facebook Page, Terra 2236!

The mobile game app is available on both iOS and Android devices.

Download the Terra 2336 game below by scanning the QR code now!

This project was awarded as part of the SG Eco Fund, which aims to support ground-up environmental sustainability initiatives in Singapore. We would like to send our sincerest appreciation to the Ministry of Sustainability and Environment for their unwavering support.

# International Built Environment Week 2022

“Accelerating Transformation, Growing Together”

A promotional banner for IBEW 2022. On the left is the IBEW logo, a circular gear-like emblem with 'IBEW' inside. To its right, the text 'ACCELERATING TRANSFORMATION, GROWING TOGETHER' is written in orange and white, with 'INTERNATIONAL BUILT ENVIRONMENT WEEK' in smaller white text below. Further right, a calendar icon precedes the dates '5 - 9 SEPTEMBER 2022', and a location pin icon precedes 'SANDS EXPO & CONVENTION CENTRE'. The website 'WWW.IBEW.SG' is in the top right. The central text 'IBEW 2022 REGISTRATION NOW OPEN!' is in large white and orange letters. At the bottom, a blue arrow points right with the text 'EARLY BIRD PROMOTION ENDS 5 AUG 2022'. On the right side is a 3D illustration of a city with green buildings, orange robotic arms, and a large gear, all on a blue background with white dots.

IBEW 2022 REGISTRATION  
**NOW OPEN!**

EARLY BIRD PROMOTION ENDS 5 AUG 2022

IBEW has been hugely successful since its inception in 2019, drawing more than 20,000 attendees from over 100 countries. This year's IBEW, which will be held in-person from 5 to 9 September 2022, embraces the theme “Accelerating Transformation, Growing Together”. The event emphasizes the importance of stepping up our transformation and grow stronger collaboratively, to capture the global opportunities emerging from the post-pandemic economies.

IBEW 2022 is back this year as a **physical event**. Besides our main conference and trade show - BEX Asia, we have lined up other exciting activities such as site visits to local exemplary projects, business networking events, as well as other complementary technical seminars & webinars, covering offerings across the built environment value chain.

Featuring a stellar line up of over 65 industry leaders and domain experts, IBEW Conference will tap on their expertise and views on the latest technologies and trends that cover three core pillars - Sustainability & Green Economy, Technology & Innovation and Leadership & Future Growth.

Additional Discount for Group Purchases: Get 10% off in total for the 3-day in-person conference passes when 6 or more register together!

## Continuing Professional Development

A key feature of the SGBC Green Mark Professional Qualification Scheme is the establishment of a Continuing Professional Development (CPD) framework for all Green Mark APs. Through a host of meaningful programmes and activities, Green Mark APs are able to remain abreast of industry trends and stay ahead of sectoral developments.

Green Mark AP certifications are renewed annually upon fulfillment of the renewal requirements.

# Accrediting Green Building Professionals

The SGBC Green Mark Professional Qualification Scheme succeeds the BCA Green Mark Specialist programme and aims to uplift, upskill and recognise green building competencies of professionals active in the built environment sector.

## Certification Types

### Green Mark AP

The Green Mark AP certification qualifies industry professionals with the knowledge and expertise needed for the implementation of Green Mark projects.

- Green Mark Accredited Professional (*Green Mark AP*)
- Green Mark Advanced Accredited Professional (*Green Mark AAP*)

### Green Mark AP (FM)

The Green Mark AP (FM) certification qualifies industry professionals with the knowledge and expertise needed to maintain and operate green buildings.

- Green Mark Accredited Professional (Facilities Management) [*Green Mark AP(FM)*]
- Green Mark Advanced Accredited Professional (Facilities Management) [*Green Mark AAP(FM)*]
